Dash and Speedometer Kits with Dashplates

Complete kits with a speedometer, dash, trim, dashplate with light sockets, and ignition switch for Softail® and 4-speed FL and FX models from 1936 thru 1995.

Note: These kits may be installed on models 1991 thru 1995 if the self-cancelling turn signal feature is forfeited.

91710 3-light dash with 1:1 ratio speedometer ***$249.99***

91963 3-light dash with 2:1 ratio speedometer ***$249.99***

91975 Cateye dash with 1:1 ratio speedometer ***$249.99***

Note: Cateye dash kits will not work with 'flatside' gas tanks.

Inferno™ Custom Face Speedometers

The hot Inferno™ flames in chrome right on the speedo face. 110 MPH speedometer with resettable trip odometer includes mounting kit and rubber dampener.

27931 1:1 ratio for 4-speed FL and FX models with transmission-driven speedometers from 1968 thru 1983. Requires a speedometer cable with a 5/8"-18 threaded nut ***$71.99***

27933 2:1 ratio for FL models with transmission speedometer drives from 1947 thru 1967, and Sportster®, FX and FXR models with front wheel speedometer drives from 1973 thru 1990 (except Softail® and 4-speed FXWG models). Requires a speedometer cable with a 5/8"-18 threaded nut. ***$71.99***

27935 2240:60 ratio for all Softail® and 4-speed FXWG models from 1984 thru 1990, and 4-speed FL models with front wheel speedometer drives from 1981 thru 1984. Requires a speedometer cable with a 12mm threaded nut ***$71.99***

27937 2240:60 ratio with reed switch for all Softail® models from 1991 thru 1995 with front wheel speedometer drives and self-canceling turn signals. Requires a speedometer cable with a 12mm threaded nut . ***$85.99***

 *Prices shown are suggested retail prices only. Actual retail prices are determined by each dealer and may vary.

Please see cautionary information following page Ref.65

Motor Factory® Speedometers

Premium® speedometers feature a quality glass lens, resettable trip mileage indicator, speedometer mounting kit (CC #25965), and a rubber speedometer dampener (CC #25959). They are available in 1:1, 2:1 and 2240:60 ratios to fit most models with Fat Bob dashes. The wide selection of speedometer faces represents most styles 1936 to present. Combined with the ability to specify drive ratio, you can detail your speedometer to suit the look of your bike.

2:1 Ratio Speedometers

Fits FL models with transmission speedometer drives from 1947 thru 1967, and Sportster®, FX and FXR models with front wheel speedometer drives from 1973 thru 1990 (except Softail® and 4-speed FXWG models). Requires a speedometer cable with a 5/8"-18 threaded nut. . . . ***$71.99***

26712 1936-1940 face
26714 1941-1945 face
26711 1946-1947 face
26716 1956-1961 face
25963 1962-1967 face (repl. OEM 67064-85T)
25962 1968-1984 face (repl. OEM 67087-85T)
26742 Late 1989-up face (120 mph)
26745 Late 1989-up face (180 km/h)

Note: Installation on 1973 and later Sportster®, FX and FXR models will require the additional purchase of one of the custom speedometer cables listed elsewhere on this page. May be installed on models from 1991 thru 1994 with front wheel speedometer drives if the self-canceling turn signal feature is forfeited.

1:1 Ratio Speedometers

Fits 4-speed FL and FX models with transmission-driven speedometers from 1968 thru 1983. Requires a speedometer cable with a 5/8"-18 threaded nut. ***$71.99***

26713 1936-1940 face
26715 1941-1945 face
25975 1946-1947 face
26717 1956-1961 face
26710 1962-1967 face (repl. OEM 67004-62T)
25973 1968-1984 face (repl. OEM 67004-68TB)

2240:60 Ratio Speedometers

Fits all Softail® and 4-speed FXWG models from 1984 thru 1990, and 4-speed FL models with front wheel speedometer drives from 1981 thru 1984. Requires a speedometer cable with a 12mm threaded nut. ***$79.99***

25917 1936-1940 face
25918 1941-1945 face
25919 1946-1947 face
25923 1962-1967 face
25924 1968-1984 face
26743 Late 1989-up face (120 mph)

Note: May be installed on models from 1991 thru 1995 if the self-canceling turn signal feature is forfeited and a pre-1991 dash cover is installed to accommodate the odometer reset knob.

2240:60 Ratio with Reed Switch

Fits all Softail® models from 1991 thru 1995 with front wheel speedometer drives and self-canceling turn signals. Requires a speedometer cable with a 12mm threaded nut.

26744 Late 1989-up face (120 mph) replaces OEM 67027-91A ***$99.99***
29516 KM/H face (repl.OEM 67030-91A) ***$139.99***

Note: This speedometer may only be installed in conjunction with the 1991 thru 1995 cast dash or Custom Chrome® equivalent to accommodate the odometer reset knob.

Speedometer Mounting Kit and Rubber Speedometer Dampener

Fit all models with cast dashes from 1968 to present. Kit includes rubber dash gasket, two mounting pins with clips, and two grommets.

25965 Complete kit (repl. OEM 67066-76) pack of ten ***$40.99***
25959 Rubber dampener for Fat Bob speedometers when used with a cast dash on Big Twins from 1968 thru 1995 (repl. OEM 67115-91) ***$5.99***

Speedometer Light Sockets

Includes 12-volt bulbs. Pack of 10.

25966 Replaces OEM 71151-70 . . . . . ***$42.99***

Custom Front Wheel Speedometer Cables

Unique black vinyl cables that permit you to combine our 2:1 ratio speedometers with front wheel speedometer drive units. Cables have a 5/8"-18 large coarse thread on the speedometer end.

19081 38 1/2"-long. ***$19.99***
19095 42 1/2"-long. ***$14.99***

Speedometer Mounting Kit and Rubber Speedometer Dampener

Fit all models with cast dashes from 1968 thru 1995. Kit includes rubber dash gasket, two mounting pins with clips, and two grommets.

25965 Complete kit (repl. OEM 67066-76) pack of ten ***$40.99***
25959 Rubber dampener for Fat Bob speedometers when used with a cast dash on Big Twins from 1968 thru 1995 (repl. OEM 67115-91) ***$5.99***

Police Special Speedometers

These quality units are available in 1:1 and 2:1 drive ratios. Speedometers come with rubber isolation kit and Late-Style threaded reset knob stud. When used with early steel dashes, antique reset knob is required. Reset knobs sold separately.

1:1 Ratio Speedometers (1000 RPM = 60 MPH)
Fits FL models 1962-1980, FX models 1971-1972 and FXWG 1980-1983 with transmission drive unit. 5/8"-18 cable fitting.

310392 Police special face ***$59.99***

2:1 Ratio Speedometers (2000 RPM = 60 MPH)
Fits FL models 1947-1961 with transmission drive unit and FX, or custom models 1973-1990 with front wheel drive unit. 5/8"-18 cable fitting.

310393 Police special face ***$59.99***

Speedometer/Tachometer

Combination instruments feature an easy to read 120 MPH speedo face with a solid state electronic tachometer. Tachometer reads RPM from 12 volt coil output. Single fire ignitions will require tach adapter. Sold under license.

310418 2240:60 ratio. Fits FL models 1981-1984, FXWG 1984-1986 and Softail® models 1984-1995* with front wheel drive unit. 12mm cable fitting ***$114.99***

U.S. Patent #4,848,154

SpeedoTach 2 for Fat Bob Dashes

Our new and improved combination speedometer and tachometer for all large Fat Bob dashes from 1947 thru 1990. The precision built 120 MPH speedometer is combined with a solid state 6000 RPM electronic tachometer that accurately tracks engine speed by reading the coil output. Both instruments are designed to withstand vibration and maintain accuracy throughout all speed ranges, and now the wiring attaches to threaded posts on the back of the gauge. Standard features include a glass lens, new graphics, a wiring harness and complete mounting kit (CC #25965).

27981 2:1 ratio for FL models with transmission speedometer drives from 1947 thru 1967, and Sportster®, FX and FXR models with front wheel speedometer drives from 1973 thru 1990 (except Softail® and 4-speed FXWG models). Requires a speedometer cable with a 5/8"-18 threaded nut ***$99.99***

Custom Front Wheel Speedometer Cables

Unique black vinyl cables that permit you to combine a CC #27981 speedometer/tachometer with front wheel drive units. Cables have a 5/8"-18 large coarse thread on the speedometer end.

19081 38 1/2"-long ***$19.99***

19095 42 1/2"-long ***$14.99***

Note: CC #27981 speedometers may be installed on models from 1991 thru 1994 if the self-cancelling turn signal feature is forfeited.

KM/H Face Fat Bob Speedometers

These units feature quality glass lenses and resettable odometers. They fit most Fat Bob dashes, and require speedometer cables with a 5/8"-18 thread.

Face	1:1 ratio	2:1 ratio	
1936-1940	**85731**	**85732**	***$69.99***
1968-1984	**85729**	**85720**	***$54.99***

KM/H Face SpeedoTachs

The same features as the speedometers listed above with the addition of an integrated electronic tachometer. Includes installation instructions.

85734 2:1 ratio ***$99.99***

 *Prices shown are suggested retail prices only. Actual retail prices are determined by each dealer and may vary.

640328

640329

Digital Performance Speedometer by Thunder Heart Performance

Innovative design that combines a digital speedometer and tachometer with a built-in performance computer and information center to allow riders access to useful information.

- Digital speedometer display and LED-bar tachometer
- Odometer and trip functions
- Displays engine 'vitals' such as cylinder head temperature and battery voltage
- Calculates horsepower, and 0-60 second times
- Payback function records up to 30 seconds of data!
- Calculates fuel mileage and range
- Programmable shift light
- Illumination automatically adjusts for night or day viewing (intensity is adjustable)
- Rugged billet aluminum housing
- Simple, two-button programming
- Comprehensive instruction manual
- Direct, plug-in replacement for all models with Fat Bob dash from 2004 thru 2007, whether carbureted or injected

640328 Black face ***$489.99***

640329 White face ***$489.99***

Digital Handlebar Gauges by Thunder Heart Performance Corp®

Thunder Heart's digital handlebar gauges are simple, stylish way to add complete instrumentation to your custom bike, or if you just want to transition from dual gauges to one unit that has it all. Each gauge includes a programmable electronic speedometer that can plug directly into your stock speedometer transmission pick-up, or plugs directly into Thunder Heart's speed sensor (CC #49208). The 0-7,000 RPM LED tachometer sweeps across the top of the gauge. All indicators are integrated into the gauge face. Indicators are activated by a standard 12-volt signal, or with Thunder Heart's Micro Harness Controller (CC #640331). Each gauge housing is machined from solid 6061-T6 billet aluminum with chrome finish. Mounts directly to either 1" or 1 1/4" diameter handlebars. Face measures 2 3/4"-diameter. Designed primarily for T-Bars can mount between risers depending on the clearance between the risers. Mounting area of gauge measures 1 3/8"-wide, and approximately 2 3/8"-deep (check clearance between risers). Features include;

- Neutral, high beam, turn signals, odometer/trip, and oil
- Programmable speedometer MPH/KPH

640920 Fits 1"-diameter handlebars ... ***$499.99***

640921 Fits 1 1/4"-diameter handlebars . ***$499.99***

Early Model Speedometer

Fits 4-speed FX models from 1973 thru 1984 (except Softail® and FXWG models) and 1973 Sportster® models.

310425 Replaces OEM 67020-73 ..... ***$35.99***

Note: 1974-1975 FX models will require rewiring from stock stator drive system to new coil drive system.

Speedometer for XL and FXR Models 1974-1983

Original style replacement speedo and tach for XL and FXR models 1974-1983.

310235 Speedometer. Fits XL models 1974-1983 and FXR models 1982-early 1983. Replaces OEM 67020-75D ***$92.99***

310304

2 1/2" Mini Instrument Kits

Designed around our popular 2 1/2" diameter mini gauges, these kits include instrument, chrome mounting bracket (without visor), chrome gauge cup, rubber grommet and hardware. Fit most Big Twin and Sportster® models from 1973 to present.

Instrument Kits

310300 Speedometer, 2:1 MPH ***$49.99***

310302 Speedometer, 2240:60 MPH..... ***$49.99***

310301 Speedometer, 2:1 KPH ***$49.99***

310304 Tachometer, coil driven ***$79.99***

Replacement Parts

310231 Single instrument bracket ***$10.99***

310202 Chrome cup, electric Adrive..... ***$4.99***

Auto Meter®
Electronic Tachometers

Available with 3 3/4" and 5" faces in two models – standard tach, and tach with a shift light. 'Shift light' tach has an amber light that comes on when the adjustable predetermined RPM is reached. All tachometers use a precision air-core needle movement for accuracy and stability. They will function on dual-fire or single-fire ignition systems (will not work with magneto ignition).

45050 3 3/4"-diameter 8,000 RPM tachometer ***$269.99***
45052 5"-diameter 10,000 RPM tachometer with 'shift light' ***$344.99***
45064 Replacement shock strap ***$35.99***

Tachometer and Speedometer

Quality instruments for FX models with handlebar-mounted instruments from 1973 thru 1982, and FX models with tank-mounted instruments from 1977 thru 1984 (except FXWG, FXST). The 120 MPH speedometer has a light socket, dash gasket and a mounting bracket. The tachometer includes a dash gasket and a mounting bracket. The speedometer requires a cable with a 16mm threaded nut.

26720 Electronic tachometer (repl. OEM 92042-78A) ***$59.99***
26721 Speedometer (repl. OEM 67020-73B) ***$55.99***

Auto Meter® Fat Tach™

This specially designed tachometer features a 5'-diameter LED dial that glows at night. Features an adjustable dimmer, adjustable shift light and chrome housing. Uses a precision air-core needle movement for accuracy and stability.

42375 5" – diameter tach ***$429.99***

1984-1993 Style Speedometer and Tachometer

Original equipment style replacement instruments for Big Twin and Sportster® models from 1984 thru 1993. The speedometers feature 10 to 120 MPH faces and come complete with dual light bulbs and sockets, wiring and mounting gasket. Available for handlebar or tank-mounted applications.

Speedometers

310424 Fits 1984 thru 1993 FX, FXR and Sportster® models with riser mounted gauges, rear reset knob and self canceling turn signals (repl. OEM 67016-86A) ***$99.99***
310427 Fits 1984 thru 1993 FX, FXR and Sportster® models with riser mounted gauges and rear reset knob (repl. OEM 67037-85A) ***$69.99***

Tachometers

310436 Fits 1984 thru 1993 FX, FXR and Sportster® models with riser mounted gauges (repl. OEMs 67111-85 and 67042-83) ***$69.99***

 *Prices shown are suggested retail prices only. Actual retail prices are determined by each dealer and may vary.

Auto Meter® 2 5/8" Pro-Cycle Electronic Speedometers

The unmatched Auto Meter® style, along with the benefits from years of Auto Meter's racing experience, puts these units ahead of the rest.

- Vibration and water-resistant
- Will not fog up
- Through the dial Cobalt blue lighting
- Illuminated pointer dial
- 0-120 MPH range
- Connects to the stock transmission speedometer pick-up
- Installation instructions included
- Matching tachometers are available

649021 Black dial ***$224.99***
649022 White dial ***$229.99***

Auto Meter® Drop-In Tach/ Speedo Combination Gauge

If you have a stock or aftermarket console and want to clean up the clutter of the instrument indicators, or if you just want to upgrade your stock speedometer then this what you been looking for. This gauge drops directly into your tank console. Check out all the features:

- Easy-to-read dual needle design
- Electronic speedo/electric tachometer
- Tachometer will work with either dual fire, or single fire ignitions
- Speedometer connects to stock transmission speedometer pick-up
- 0-120 MPH / 0-8,000 RPM
- Black face, illuminated pointer, white through-the-dial LED lighting
- 4 indicator lights (can be disabled if you choose) turn signal, oil pressure, high beam, and neutral
- Water resistant dial
- Vibration resistant
- Full wiring/installation instructions
- Auto Meter super bezel

649020 Fits Road King®, Dyna Wide Glide®, and Softail® (except Deuce™) models from 1995 thru 2003..... ***$419.99***

Note: Models from 2004 thru 2007 require a CC #600417 Inductive RPM Sensor.

Auto Meter® Tachometers with Chrome Housings

2 5/8" and 3 3/8"-diameter electronic tachometers feature precision air-core needle movements that are stable and accurate to 8,000 RPM. They are all housed in chrome cases with your choice of face plates, and work with single or dual fire ignitions

45065 3 3/8"-diameter, black face..... ***$259.99***
45066 3 3/8"-diameter, white face ***$269.99***

Auto Meter® 2 5/8" Pro-Cycle Electronic Tachometers

The unmatched Auto Meter® style, along with the benefits from years of Auto Meter's racing experience, puts these units ahead of the rest.

- Vibration and water-resistant
- Will not fog up
- Through the dial COBALT blue lighting
- Illuminated pointer dial
- 0-8,000 RPM range
- Works with single or dual fire ignitions
- Installation instructions included
- Matching speedometers are available

649023 Black dial ***$229.99***
649024 White dial ***$235.99***

Note: Models from 2004 thru 2007 require a CC #600417 Inductive RPM Sensor.

Dyna Shift Minder System

Features billet aluminum, black and gold finished housing and trim, extended bulb life with built-in check feature, and precise solid state electronics in the control module. With triggering accuracy to within 1%, it is adjustable to any of 64 settings in increments of 125 rpm. The control module is available separately for use as an engine speed activated switch for air shifters or nitrous injection systems.

60779 Control module ONLY ***$135.99***
60780 Shift Minder system w/shift light for all twin cylinder models ***$199.99***

Dakota Digital Electronic Instruments for Fat Bob Tanks

An engine and vehicle status system in one compact self-contained gauge. Designed to fit in standard tank mounted dashes, the large teal green display is easily readable in direct sunlight and comes with a manufacturer's 2 year warranty. Features include;

- 0-255 MPH digital speedometer
- 0-8000 RPM adjustable tachometer
- Two re-settable trip meters
- Turn signals
- High-beam, and neutral indicators
- Low oil pressure warning
- Check engine indicator
- Security light
- Voltmeter reading with low voltage warning
- Re-settable service miles, and hour meter
- User settable countdown service meter with warning
- High speed, and high RPM recall
- Timers; 0-60 mph, 1/4 mile, 1/4 mile speed
- Gear position display (compatible with 3-speed through 6-speed transmissions)
- Adjustable RPM warning point with output for external shift light.

The speedometer is adjustable for nearly any gearing or tire size combinations using a simple push button calibration routine. The tachometer does not require an adapter for use on single fire ignitions. Each instrument includes a speed output wire for models with self-canceling turn signals.

Note: 1996 thru 2003 models do not require sender unit. Custom applications will require the purchase of sender units for 310663 and 310664.

MPH Instruments

310663 Fits all models from 1996 thru 2003 (HLY-2002) ***$499.99***

601650 Fits all models from 2004 to present (HLY-2004) ***$499.99***

KPH Instruments

310664 Fits all models from 1996 thru 2003 (HLY-2002M) ***$499.99***

601651 Fits all models from 2004 to present (HLY-2004-M) ***$499.99***

Sender Units

310661 Sender for cable driven models (5/8"-18 fitting) can be remotely mounted) SEN-2011 ..... ***$39.99***

310662 Sender for electric driven models (plugs into Original Equipment 1996-up speedo sender) SEN-2012 ..... ***$24.99***

601646 Sender units that reads gear teeth, pulley bolts or any ferrous metal passing it (SEN-6019) ***$59.99***

601647 Sensor adapter with 36"-long lead for use with electronic speedometers (SEN-2013)..... ***$24.99***

Dakota Digital Programmable Gear Shift Indicator

A revolutionary new product from Dakota Digital. These programmable gear indicators are truly unique, and will display 1-7 forward gear positions, including neutral, while providing simple programming for any application. Chrome finish with integrated clamp that mounts to the handlebar. Requires electronic speed pick-up signal.

601652 Fits 1" handlebars (PGR-1100)..... ***$225.99***

601653 Fits 1 1/4" handlebars (PGR-1125)..... ***$225.99***

601668 Fairing mount self-programming gear indicator (PGR-1000-F).. ***$225.99***

Note: Models without electronic speed pick-up signal will need a universal inductive pick-up (CC #601646).

All of the Dakota Digital mini gauges on this page may be installed on your bike using the cups and brackets listed on page 17.12

Round Digital Mini Speedometers

310858

- 255 MPH (KPH available) speedometer calibration is adjustable for nearly any gearing or tire size combination
- Work in electronic and cable driven applications
- Odometer with resettable trip odometer
- Easy, push button calibration
- Chromed bezels with non-glare scratch-resistant lens
- Complements CC #310859 (HLY-3027) Tachometer
- Machined aluminum housings mount in Cycle Opts riser sets (CC #'s 606110 and 606111) or any other 21/16"-diameter openings
- Can be used with Dakota Digital chrome or machined steel cups, and chrome handlebar clamps

310858 MPH Speedo (HLY-3013) ***$274.99***

Dakota Digital Mini Tachometer

Readouts display RPM with 0-18,000 RPM range with 10 RPM resolution below 10,000 RPMs and 100 RPM resolution above 10,000 RPMs. High RPM recall. Adjustable from 1-15 cylinders. Mounts in a 2 1/16" opening.

310859 2 1/16" Tachometer ***$274.99***

Round Digital Performance Speedometer with Indicators

- 255 MPH speedometer calibration is adjustable for nearly any gearing or tire size combination
- Easy, push button calibration with user selectable MPH or KPH
- Numeric and bar graph speedometer display
- Works in electronic and cable driven applications
- Odometer with two resettable trip odometers
- Resettable "Mile to Service" with warning (user selectable countdown)
- When used in conjunction with the HLY-3021 tachometer (CC #601634), the HLY-3021 will display a gear position indicator
- Compatible with automatic turn signal canceling
- Various indicators can also be displayed such as: turn signals, high-beam, check engine, low oil and neutral indicators
- "Wait to start"/ "Check Engine" light
- Several performance calculations include: high speed recall, 0-60 timer, 1/4 mile time and speed
- Chrome bezel with non-glare scratch-resistant lens
- Machined aluminum housing will fit into most aftermarket mounting brackets with 3 3/8" openings

601632 MPH Speedo (HLY-3011) ***$274.99***
601642 Turn signal module (TSI-1) ***$19.99***

Dakota Digital

GO DIGITAL!

Digital Mini Speedometer/Tachometer

This feature-filled round electronic instrumentation system uses new brightness vacuum fluorescent graphic display technology in a compact 2 1/16"-diameter package. It offers a 255 MPH speedometer, quick response bar graph tachometer, odometer with resettable trip meter and a full compliment of indicators to provide a complete information system.

- 255 MPH speedometer calibration is adjust-able for nearly any gearing or tire size combination
- User selectable MPH or KPH
- Works in electronic and cable driven applications
- Odometer with resettable trip odometer
- Quick response bar graph tachometer with adjustable shift point indicator and warning
- Easy tachometer calibration for a wide range of cylinder combinations from 1-15 cylinders without the use and hassle of bulky coils
- Various indicators can also be displayed such as: turn signal, high beam, neutral and low oil pressure
- Compatible with automatic turn signal canceling
- "Wait to start" / "Check Engine" light
- Chrome bezel with non-glare scratch-resistant lens
- Machined aluminum housing mounts in Cycle Opts riser sets (CC #'s 606110 and 606111) or any other 2 1/16"-diameter openings
- Can be used with Dakota Digital chrome or machined steel cups, and chrome handlebar clamps

601627 Speedo/Tach (HLY-3015) ***$469.99***
601642 Turn signal module (TSI-1) ***$19.99***
601628 Chrome gauge cup ***$75.99***
601629 Raw steel gauge cup ***$60.99***
601630 Cup mount for 1" bars ***$60.99***
601631 Cup mount for 1 1/4" bars ***$65.99***

 *Prices shown are suggested retail prices only. Actual retail prices are determined by each dealer and may vary.

Dakota Digital

MCV 7000 Series Speedometer, Tachometer Information Center

Not just a speedometer and tachometer gauge but a comprehensive information center! Comes in four popular styles, Oval, Spyke, Hooded, and the Classic. Selection of mounting brackets sold separately. All are billet aluminum with chrome finish. Check out these features;

- 0-199 MPH, or KM/H Speedometer
- 0-8,000 RPM Bar Graph
- 0-16,000 Tachometer numeric readout
- Oil Pressure Gauge (sender included)
- Voltmeter
- Fuel Level Gauge, (bike must be equipped with a stock sender)
- Gear Position Readout
- Clock
- Million Mile Odometer with Dual Trip Meters and Countdown Service Meter
- Turn Signal, High Beam, Neutral, Low Oil, Low Fuel, Low Voltage, Service Engine / Wait to start indicators.
- Speedometer wire connects to stock transmission speedometer pickup
- Performance Displays such as 0-60 MPH/KPH timer, ¼ Mile Timer, and Speed, High Speed and RPM Recall
- Positive Locking Connectors for all Wires to ensure Connection Retention

601664 Oval style *$459.99*
601665 Spyke style *$459.99*
601666 Hooded style *$559.99*
601667 Classic style *$459.99*

Mounting Brackets

310659 Chrome bar mounting bracket 1¼" *$80.99*
310660 Chrome bar mounting bracket 1½" *$85.99*
310646 Chrome bar mounting bracket 1" *$75.99*
310647 Chrome flat triple tree mounting bracket *$89.99*
310648 Chrome 35 degree triple tree mounting bracket *$89.99*

Sender Units

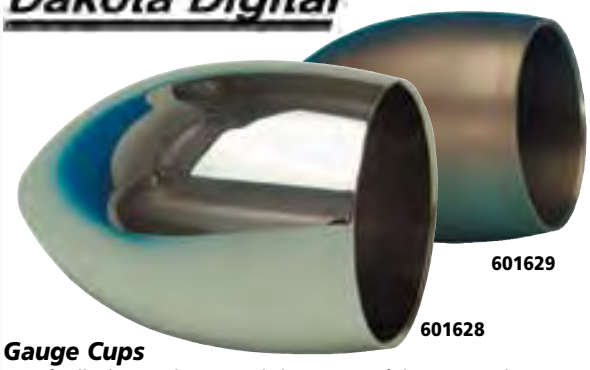
601646 Gear tooth sensor for speedometer pick up. Ideal for custom application *$59.99*
310652 Sender unit for cable driven speedometers *$34.95*
310649 Adapter for 1996-up electronic transmission sender *$19.99*
310654 Sender unit inductive pick-up sensor reads chain sprocket teeth *$59.99*

*Note #601664, 601665, 601666, 601667 may require the purchase of a sender if bike doesn't already have an electronic speedometer pick-up.

Digital Speedometers

Introducing the next generation bar mount speedometer from Dakota Digital. Like with all MCL series gauges, these speedometers are easily visible in any amount of direct sun. Features include a 0-255 MPH/km/h adjustable speedometer with odometer and trip meter. Also included are indicators for left and right turn, high beam, neutral, low oil pressure, and check engine. Available in three new styles; Wave, Spike, and Classic.

601671 Wave speedo (MCL-5100) *$349.99*
601672 Spike speedo (MCL-5200) *$349.99*
601673 Classic speedo (MCL-5400) ... *$349.99*
601642 Turn signal module (TSI-1) *$19.99*
310646 Mount for 1" handlebars *$75.99*
310659 Mount for 1¼" handlebars ... *$80.99*
310660 Mount for 1½" handlebars ... *$85.99*



Gauge Cups

Specifically designed to securely house any of the 2 1/16" Dakota Digital HLY-3000-series gauges. The chrome cup is ideally suited for use with the Cup Mounting Brackets (CC #'s 601630 and 601631), while the machined steel cup is perfect for welding into custom applications. Use when making custom bars or specialty, integrated mounts.

601628 Chrome cup (CUP-3001) ***$75.99***
601629 Raw steel cup (CUP-3003)..... ***$60.99***

MCL Gauge Cups

Specifically designed to securely house any of the MCL 1 7/8" gauges. Ideally suited to attach to handlebar mounting bar mounting brackets (CC #'s 601630 and 601631). A raw steel cup is perfect for welding into custom applications or for paint.

601654 Chrome finish..... ***$75.99***
601655 Raw steel ***$60.99***

Chrome Cup Mounting Brackets

Use with CC #601628 (CUP-3001) Chrome Cup to secure to bars. Innovative mount conceals most hard ware for very clean look. All bar mounts are made of machined aluminum and have high-quality triple chrome-plating.

601630 Fits 1" bars (BKT-3100)..... ***$60.99***
601631 Fits 1 1/4" bars (BKT-3125) ***$65.99***

Handlebar Mounts for Gauges

All bar mounts are made of machined aluminum, and feature show-quality triple chrome-plating. Can be used to mount gauges above or below the bars.

310646 Mount for 1" handlebars..... ***$75.99***
310659 Mount for 1 1/4" handlebars... ***$80.99***
310660 Mount for 1 1/2" handlebars... ***$85.99***

Electronic Hidden Antenna

This hidden electronic AM/FM antenna is great for cleaning up the fairing or Tour-Pak® on your tour bike by eliminating the unsightly mast antenna. It can be hidden inside your plastic or fiberglass fairing and plugs directly into any standard antenna jack. It's only 3 1/2" x 3/4" in size and comes with 3 feet of cable. Requires connection to switched 12 volts and is sealed from dirt and moisture.

601643 Antenna (ANT-2000)..... ***$79.99***

Turn Signal Interface Module

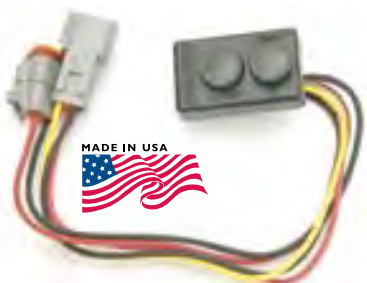
Permits the HLY-1000, HLY-3000, and HLY-5000-series speedometers to work with automatic turn signal cancel modules. Requiring only 12-volts, ground, speed in, and turn output, the TSI-1 is easy to hook up and use.

601642 Turn signal module (TSI-1) ***$19.99***

Universal Inductive Speed Sensor

Reads gear teeth, pulley bolts or any ferrous metal passing by it. Provides a pulse signal to the speedometer which in turn calculates and displays the bike's speed.

601646 Sensor ONLY (SEN-6019)..... ***$59.99***



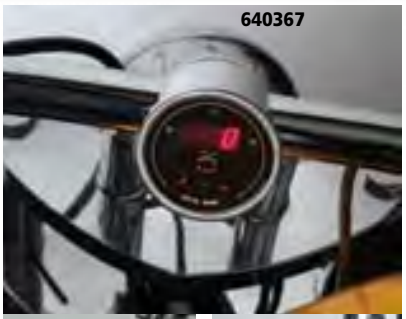
Dakota Digital Speed Generator Interface

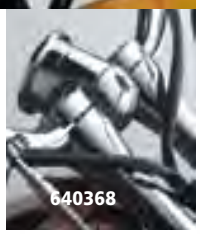
Use this device to re-calibrate your electronic speedometer for correct speed and mileage readout. Simple plug-in installation and potentiometer adjusters allow quick, easy and accurate calibration. Made in USA.

310669 Fits all models from 1996 thru 2006 and custom applications (SIM-1)..... ***$114.99***

 *Prices shown are suggested retail prices only. Actual retail prices are determined by each dealer and may vary.

Please see cautionary information following page Ref.65





Round Digital Instrument Panels by Wire Plus™

Fully-functional instrument panels that measure just 2 1/2"-diameter. These chrome-plated units are self-contained.... with no external modules to wire to. Just hook up the wires and you're on your way.

They include the following features:

- Provides digital speedometer and all indicator light functions including Oil, Turn Signal, Hi-Low Beam, and Neutral
- Super-bright display technology with a back-lit graphic overlay and a daylight sensor for auto dimming at night
- Encased in molded epoxy for moisture, vibration, and corrosion resistance
- Requires digital signal from transmission sensor (or like device) for speedometer input (see catalog page 17.21)
- Two mounting styles to choose from

640367 Fits 1 1/4"-diameter T-bars ***$399.99***

640368 Fits between two-piece risers on 1"-diameter handlebars ***$399.99***

Square Digital Instrument Panels by Wire Plus™

Fully-functional instrument panels that measure just 2"-wide x 3.35"-long. Self-contained.... no external module to wire to. Just hook up the wires, and you're on your way.

They include the following features:

- Provides digital speedometer, tachometer, and all indicator light functions including Oil, Turn, Hi-Low Beam, and Neutral
- Super-bright display technology with a back-lit graphic overlay and a daylight sensor for auto dimming at night
- Innovative flat panel design that reduces module depth to less than 1"!! Molded epoxy construction for moisture, vibration, and corrosion resistance
- For speedometer to function, it requires a digital input signal from a transmission speedometer pick-up, or like device (see catalog page 17.21)
- For tachometer to function, it requires an ignition module that has a tachometer output. As a result, this unit may not work with pre-1999 Original Equipment ignition modules
- Two digital instrument panel styles; a bar mount style for your handlebars (use brackets listed below), or a panel mount designed to be frenched into an instrument dash/panel (cut-out dimensions 3 23/64"-long x 2"-wide x 1"-deep)

640354 Handlebar-mount instrument panel with 36"-long wiring harness ***$499.99***

Instrument Panel Mounting Clamps for T-Bars

Choice of three sizes for use with CC #640354 Digital Instrument Panel.

640356 Mount for 1" handlebars ***$105.99***

640357 Mount for 1 1/4" handlebars... ***$105.99***

640358 Mount for 1 1/2" handlebars... ***$105.99***

Instrument Panel Mounting Clamps for 1" Handlebars

For use between two-piece risers when using CC #640354 Digital Instrument Panel.

640371 Positions instrument panel in the middle of the handlebars..... ***$85.99***

640372 Positions instrument panel above or below the handlebars ***$85.99***

Motoscope Mini

The motoscope mini from motogadget features a multifunctional digital instrument, which is extremely compact and lightweight. The LED display is a proprietary development by motogadget especially designed for the motoscope mini. This display represents an absolute novelty in the field of digital instruments. 251 ultra-bright LEDs form an almost rimless display area that provides for faultless readable indications and different modes of programming. Due to its unostentatious and elegant design and its superb visual and function-related quality the motoscope mini is eminently suited to almost all two or four wheel custom vehicles - whether they are Fighters, Low Riders, Sports Bikes, Enduros, Super Motos or even Quads, Mini-Bikes, Scooters and custom cars. The motoscope mini can be either positioned prominently to enhance a vehicle's style or can be integrated unobtrusively for an absolutely clean look! And finally for all weight fetishists: a bicycle speedometer can hardly beat a weight of 32 grams including connection cable.

The motoscope mini comes including manual, sensor, mini push button, plug kit and 2 screws.

681475 Motoscope Mini Black ***$357.99***
681476 Motoscope Mini Polished ***$357.99***

Universal Bracket Motoscope Mini

Universally usable mounting bracket "A" for the motoscope mini. It is made of 2.5 mm thick aluminum sheet metal, precisely laser cut. It can be adapted individually by cutting it to length and drilling it according to the respective use. The maximum width at the mounting end side is 90 mm.

681489 Universal Bracket Black ***$41.99***
681490 Universal Bracket Polished ***$41.99***

Motosign Mini

It is an extremely small indicator light unit featuring 5 coloured LEDs. The device is very suitable for the motoscope mini. Length /width /depth: 46 mm, 8 mm, 13 mm; length of the connecting cable is approx..... 50 cm; two threaded fastening bores (M3); weight with cable is approx.... 18 grams; The device is already equipped with integrated multiplier resistors.

LED colors:

- 2 x yellow (indicators left/right or 1 x indicators/ 1 x warning light)
- 1 x green (idle gear)
- 1 x blue (high beam)
- 1 x red (warning light)

681477 Motosign Mini Black ***$127.99***
681478 Motosign Mini Polished ***$127.99***

Universal Bracket Motoscope Mini & Motosign

Universally usable mounting bracket "C" for the motoscope mini AND the motosign mini. It is made of 2.5 mm thick aluminum sheet metal, precisely laser cut. It can be adapted individually by cutting it to length and drilling it according to the respective use. The maximum width at the mounting end side is 90 mm.

681491 Universal Bracket Motoscope & Motosign Black..... ***$41.99***
681492 Universal Bracket Motoscope & Motosign Polished ***$41.99***

 *Prices shown are suggested retail prices only. Actual retail prices are determined by each dealer and may vary.

Please see cautionary information following page Ref.65

motogadget

Handle Bar Top Clamp 1"

Precisely milled handlebar clamp made of billet aluminum. It fits all Harley Davidson and Buell motorcycles with 1 inch handlebars. It replaces the upper part of the original handlebar clamping and enables a form-fitting installation of the motoscope mini. Furthermore, the handlebar clamp features 4 integrated LEDs as indicator lights (red, yellow, blue, green) and a connecting cable of approx 55 cm length. Scope of delivery includes 4 fastening screws (stainless steel) for the handlebar clamp, two fastening screws for the instrument and an installation manual. The motoscope mini is NOT included (!) and must be ordered separately

681479 Handle Bar Top Clamp 1" Black ***$247.99***
681480 Handle Bar Top Clamp 1" Polished ***$247.99***

Handle Bar Clip Kit 1"

The kit consists of two filigree handlebar clamps precisely milled from billet aluminum. Two fastening screws of stainless steel are included. With this clamp kit the motoscope mini can be fasten to the handlebar in an easy and elegant way (fits handlebars of 22 mm in diameter).

681487 HANDLE BAR CLIP KIT 1" BLACK ***$98.99***
681488 HANDLE BAR CLIP KIT 1" ANODIZED ***$98.99***

Rocker Box Bracket XL

Precisely milled rocker box bracket made of billet aluminum. The bracket fits Harley Davidson Sportster engines and enables the mounting of the motoscope mini close to the rear rocker box. Scope of delivery includes two screws (stainless steel) for fastening the bracket to the rocker box and two screws for fastening the instrument to the bracket. Washers and an installation manual are also enclosed. The motoscope mini is NOT included (!) and must be ordered separately.

681481 XL Rocker Box Bracket Black ***$169.99***
681482 XL Rocker Box Bracket Polished ***$169.99***

Big Twin Rocker Box Bracket

Precisely milled rocker box bracket made of billet aluminum. The bracket fits all Harley Davidson TwinCam engines. It enables the mounting of the motoscope mini close to the rear rocker box. Scope of delivery includes two screws (stainless steel) for fastening the bracket to the rear rocker box and two screws for fastening the instrument to the bracket. Washers and an installation manual are also enclosed. The motoscope mini is NOT included and must be ordered separately.

681483 EVO® rocker box bracket, black ***$199.99***
681485 TC® rocker box bracket, black ***$204.99***
681484 EVO® rocker box bracket, polished ***$199.99***
681486 TC® rocker box bracket, polished ***$204.99***

Universal Speedo Sensor Bracket

The bracket is designed for an easy fastening of the speedometer sensor (M5). It is made of 1.5 mm thick stainless steel, precisely laser cutted and brushed. It can be adapted individually by bending and cutting it to best fit and by drilling it according to the respective use. The bracket is pre-drilled at the sensor side and shows a width of 11 mm and a length of 91 mm.

681493 UNIV. Speedo Sensor Bracket Stainless Steel ***$19.99***

Electronic and Mechanical Tachometers are available!

Mini Gauges

These gauges feature chrome cases with polished stainless steel bezels, strong chrome steel mounts, rubber mount handlebar clamps, accurate non-fluctuating indicators and 12-volt dial lights. They measure 2 5/8"-wide x 2 1/16"-deep. Durable housings are water and vibration resistant. The speedometers require cables with 12mm threaded nuts.

Speedometers ONLY

The 1:1 ratio units fit 4-speed FL and FX models with transmission driven speedometers from 1968 thru 1983. The 2:1 ratio units fit 1954 thru 1972 Sportster® and K models, and FL models with transmission speedometer drives from 1947 thru 1967. They also fit Sportster®, FX and FXR models with front wheel speedometer drives from 1973 thru 1990 (except Softail® and 4-speed FXWG models). The 2240:60 ratio unit will fit Softail® and 4-speed FXWG models from 1984 thru 1990, and 4-speed FL models with front wheel speedometer drives from 1981 thru 1984. It may also be installed on Softail® models from 1991 thru 1995 if the self-cancelling turn signal feature is forfeited.

310690 2240:60 ratio with MPH face ***$49.99***
27800 1:1 ratio with 140 MPH face ***$49.99***
27810 2:1 ratio with 140 MPH face ***$49.99***
310417 2:1 ratio with 180 KM/H face ***$35.99***

Speedometer Kits with Cables

These kits feature the same high-quality speedometers listed above, and include a speedometer cable to facilitate installation.

310434 2240:60 ratio with MPH face for Softail® and 4-speed FXWG models from 1984 thru 1990, and 4-speed FL models with front wheel speedometer drives from 1981 thru 1984. May also be installed on Softail® models from 1991 thru 1995 if the self-cancelling turn signal feature is forfeited ***$49.99***
27860 2:1 ratio with MPH face for Sportster® and K models from 1954 thru 1972, and FL models with transmission speedometer drives from 1947 thru 1967 ..... ***$49.99***
27861 2:1 ratio for Sportster®, FX and FXR models with front wheel speedometer drives from 1973 thru 1990 ..... ***$49.99***
27862 1:1 ratio for 4-speed FL and FX models with transmission-driven speedometers from 1968 thru 1983 ..... ***$49.99***

Speedometers with Resettable Odometers

The 2:1 ratio units fit 1954 thru 1972 Sportster® and K models, and FL models with transmission speedometer drives from 1947 thru 1967. They also fit Sportster®, FX and FXR models with front wheel speedometer drives from 1973 thru 1990 (except Softail® and 4-speed FXWG models). The 2240:60 ratio unit will fit Softail® and 4-speed FXWG models from 1984 thru 1990, and 4-speed FL models with front wheel speedometer drives from 1981 thru 1984. It may also be installed on Softail® models from 1991 thru 1995 if the self-cancelling turn signal feature is forfeited.

310718 2240:60 ratio with 160 MPH face ***$54.99***
27805 2:1 ratio with 140 MPH face ***$39.99***
27807 2:1 ratio with 180 KM/H face ***$39.99***

Tachometers ONLY

27820 2:1 ratio for all models with mechanical tachometers ***$29.99***
27821 Electronic tachometer for most models from 1973 to present ***$59.99***

Tachometer Kit with Cable

This kit features the same high-quality tachometer listed above, and includes a tachometer cable to facilitate installation.

27863 2:1 ratio for all models with mechanical tachometers ***$42.99***

Replacement Parts

16041 Handlebar gauge clamp ***$5.99***
27823 12-volt bulb (twist type) box of 10 ..... ***$13.99***
27824 12-volt bulb (push-in type) box of 10 ..... ***$12.99***
27852 Black vinyl speedometer cable for CC #27862 (53"-long) ***$14.99***
19084 Black vinyl speedometer cable for CC #'s 27860 and 27861 (38 1/2"-long) ***$14.99***
310464 Black vinyl speedometer cable for CC #310434 (38 1/2"-long) ***$7.99***
310497 Braided steel speedometer cable for CC #310434 (38 1/2"-long) ***$18.99***

Doss Speedometer Visors

Add a unique styling touch in minutes. Chrome-plated, die-cast metal, easily installed using silicone adhesive provided. Fits all large FL-style electronic speedometers on Road King® models from 1994 to present, Dyna Wide Glide® models from 1995 to present and Softail® models from 1996 to present.

46381 Sold each ***$17.99***

'Mirage®' Speedometer Visors

Chrome-plated visor features die-cast zinc construction and styling to match other Custom Chrome® Mirage® accessories. Installs quickly and easily with the included clear silicone adhesive.

27153 Fits large Fat Bob Original Equipment electronic speedometers as used on Softail® models from 1996 to present, Road King® models from 1994 thru 2003 and Dyna Wide Glide® models from 1995 to present (sold each) ***$10.99***

 *Prices shown are suggested retail prices only. Actual retail prices are determined by each dealer and may vary.

Please see cautionary information following page Ref.65

Gauge Mounts for 1 1/4" T-Bars

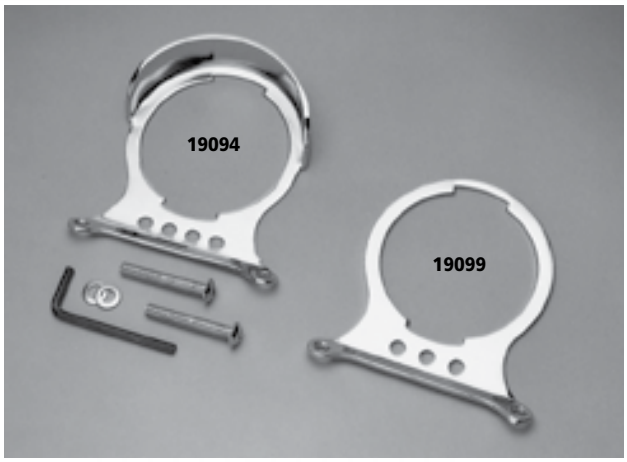
Chrome-plated billet aluminum gauge mounts for T-Bars with 3 1/2" riser centers. Designed to be used with the Original Equipment gauges used from 1983 to present, and most mini gauges measuring 2 5/8" in diameter. The mount for 1995 and later gauges also comes with a chrome cup.

For 1995 thru 2003 Electronic Gauges

10250 Single gauge. ***$139.99***

For 2 5/8"-Diameter Mini Gauges

10246 Single gauge. ***$79.99***



Chrome Solo Gauge Mounts

Chromed steel, instrument brackets upgrade the standard black finished bracket on all single instrument models. Fit FX, FXR and Sportster® models from 1983 thru 1991. Looks great when combined with CC #19097 chrome gauge cover.

19094 Visored bracket for Sportster® and FXR models (except FXLR and Super Glide® models) from 1986 thru 1991(repl. OEM 67053-86). ***$25.99***

19099 Stock replacement bracket for FXE and Sportster® models with a single gauge from 1983 thru 1985 (repl. OEM 67053-83T). ***$14.99***

Chrome Gauge Cover Set

Matched set of full-coverage chrome speedometer and tachometer covers. Slips easily over the stock instrument housing and uses existing hardware without modification.

19090 Tach and speedo cover set for the steel-cased instruments on Sportster®, FX and FXR models 1984 thru 1990. . . . . ***$24.99***

19097 Fits the steel-cased speedometers on FX, FXR and Sportster® models from 1983 thru 1990 (repl. OEMs 67090-85 and 67105-83). ***$14.99***

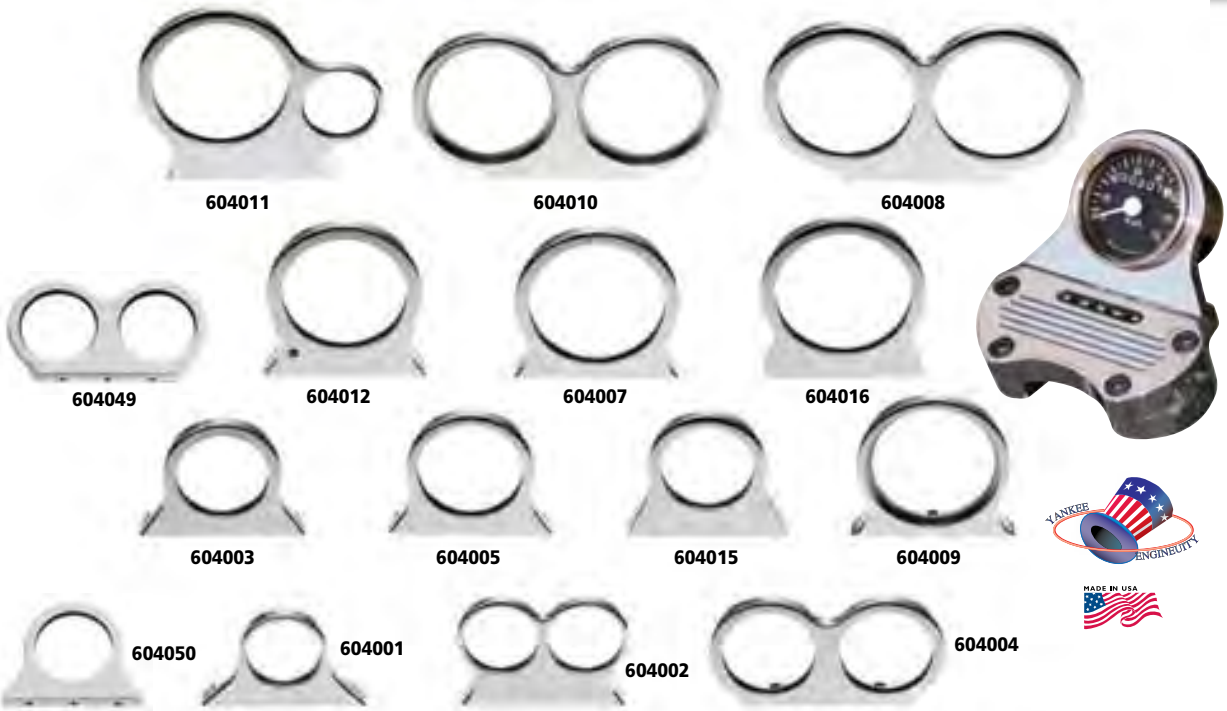
19100 Fits the steel-cased tachometers on FX, FXR and Sportster® models from 1984 thru 1994 (repl. OEMs 67092-85 and 67112-83). ***$14.99***

Chrome Billet 41mm Fork Tube Gauge Bracket

This slick new aluminum pinch-clamp bracket permits quick and easy installation of our micro mini 48mm (1.9 inch) gauges (see catalog page 17.16) to exposed 41mm fork tubes. Gauges are sold separately.

669902 Measures 41mm (1.6") x 48mm (1.9") ***$65.99***

MIX - MATCH GAUGE MOUNTS



Yankee Engineuity Chrome Gauge Mounts and Handlebar Clamps

Now you can mix and match to your desire of style with these American-made mounts.

- Allows you to use existing hardware and stock-style indicator lamps
- Chrome-plated for the ultimate
- Handlebar gauge mount clamps feature engraved vertical grooves and are available 'flat' for pullback risers and in a 35° angle for straight risers on 3 1/2" centers
- Come with or without holes for indicator lamps or light bar
- Mix and match gauge mounts and clamps

Instructions Notes:

1. Determine type of gauge to be used.
2. Pick appropriate gauge top (Single or Dual).
3. Pick appropriate gauge top. Necessary for most installations, unless otherwise noted.
4. Pick base clamp of choice. All base clamps work with ALL gauge tops.

Adapter for Electronic Tachometers, by Crane Cams®

If your single fire ignition coil has no provisions for electronic tachometer, then you need this adapter. It permits use of any electronic tachometer on late model motorcycles, and is quick and easy to install. Includes all hardware necessary for installation. Will work with a wide range of single fire ignitions.

24149 Fits ground-sensing and pulse-sensing tachometers. ***$39.99***

Speedometer Reset Knob

This chrome reset knob features knurled edges for easy adjustment and comes with mounting screw. Fits Softail® models from 1990 thru 1995.

310365 Sold each (repl. OEMs 67215-89 and 67117-85). ***$2.99***

Speedometer Knobs and Screws

Chrome knurled knob and screw sets for large dash-mounted Fat Bob speedometers. Sold in packs of 10.

25958 Fits all Softail® models 1990 to present (replaces OEM 67215-89). ***$17.99***

25974 Fits all 4-speed Big Twins and Softail® models from 1968 thru 1989 (replaces OEMs 67215-68, 67217-68). ***$24.99***

Antique Speedometer Knobs

Reproduction of the thin stem odometer reset knob for Big Twin speedometers. Ideal for steel two-light, three-light or Cateye dashes.

25964 Bag of ten ***$11.99***

Gauge Adaptor Bracket for T-Bars by Accutronix

Made of chrome-plated billet aluminum and designed to mount the electronic gauge brackets from 1995 thru 2003 Dyna Glide and Sportster® models to custom T-bars.

44583 Fits all 1 1/4"-diameter T-bars that have 3 1/2"-centers. ***$109.99***

Note: Not for use with 883C or 1200C Sportster® models.

Premium® Mounting Gaskets

Foam rubber mounting gaskets are direct replacements for stock gaskets for metal-cased instruments on Sportster®, FX, FXR and Dyna Glide models from 1983 thru 1994. Sold each.

26706 With visor (repl. OEM 67039-83). ***$9.99***

26707 Without visor (repl. OEM 67104-83). ***$6.99***

Edelbrock GMR Tach Signal Pickup for 2004 thru 2007 Models

All 2004-up Big Twins get their RPM signal from the data bus, which makes it much more complicated to pick-up a tach signal. The inductive RPM Sensor is a simple, easy-to-install, harness that will allow you to accurately reference the engine RPM for components such as the Edelbrock Nitrous System or an aftermarket tachometer. This unit is a 'must' use for nitrous on 2004 and later models.

600417 Sold each ***$74.99***

Speedometer/Tachometer Replacement Lens for Sportster® and FXR Models

This lens replaces cracked, faded, or broken original style speedometer or tachometer lenses and is constructed of an advanced weather resistant material that will not discolor. Installs easily by removing the old lens and solvent-welding the new lens in place. Fits Sportster® models from 1974 thru 1983 and FXR models from 1982-early 1983.

310145 Sold each ***$8.99***

Tachometer Block-Off Plug for Sportster® Models

Chrome plug fits Sportster® models from 1957 thru 1984.

500430 Sold each ***$12.99***

 *Prices shown are suggested retail prices only. Actual retail prices are determined by each dealer and may vary.

Please see cautionary information following page Ref.65

Billet Aluminum Speed Sensor

Upgrade the stock plastic transmission speed sensor with this billet beauty. Add some style to your speed. Fits all Big Twin models from 1996 thru 2006.

49208 Replaces OEMs 74420-94, 74437-96) ***$57.99***

Electronic Speedo Sending Unit

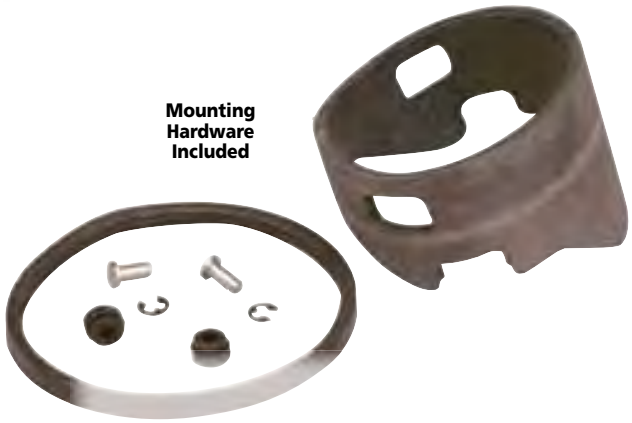
Original Equipment sensor for all stock 5-speed Big Twin transmissions from 1996 thru 2006. Also fits RevTech® 5-speed Big Twin transmissions (except RevTech® 5-speed in a 4-speed case).

75090 Replaces OEM 74437-96 ..... ***$74.99***

Billet Aluminum Rear Wheel Speed Sensor

This rear wheel speed sensor is made from polished aluminum and clamps to the left rear axle spacer and 'counts' the pulley bolts to provide a 'pulse' for programmable VDO electronic speedometers.

49209 Custom rear wheel sensor ***$85.99***

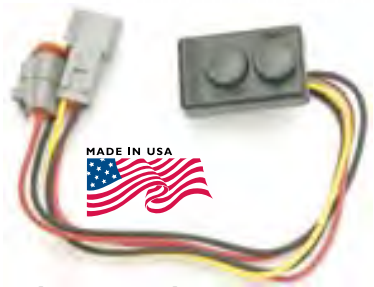


Speedometer Mounting Kit and Rubber Speedometer Dampener

Fit all models with cast dashes from 1968 to present. Kit includes rubber dash gasket, two mounting pins with clips, and two grommets.

25965 Complete kit (repl. OEM 67066-76) ack of ten. ***$40.99***

25959 Rubber dampener for Fat Bob speedometers when used with a cast dash on Big Twins from 1968 thru 1995 (repl. OEM 67115-91). ***$5.99***



Dakota Digital Speed Generator Interface

Use this device to re-calibrate your electronic speedometer for correct speed and mileage readout. Simple plug-in installation and potentiometer adjusters allow quick, easy and accurate calibration. Made in USA.

310669 Fits all models from 1996 thru 2006 and custom applications (SIM-1). ***$114.99***

Adapter Device for MW Digital Speedometers

Designed to use all MW handlebar clamps with digital speedo on all models from 1995 thru 2006 with electronic driven speedometer. Just plug onto the sensor and connect the leads to the speedo. Useful also when changing your rear wheel diameter or belt pulley. This device works with the most of the digital speedometers on the market as well.

85786 Adapter device ***$199.99***

Light Bulb Sockets for Fat Bob Speedometers

Replacement bulb sockets with two wires for large FL speedos. Sold each.

84900 Metal lamp socket. ***$3.99***

18210 Replacement fittings for CC #18209 (pack of 5) ***$47.99***

Dash Panel with Oil Pressure Gauges

This tank panel features die-cast construction and an integral 60 lb. liquid-filled oil pressure gauge. It was designed to emulate the styling of the Original Equipment cast dashes fitted to most 4-speed FL, FX and Softail® models from 1968 thru 1999. Each kit includes all of the necessary oil line, fittings and hardware for a quick and easy installation, and fit all Softail® and 4-speed FXWG models from 1983 thru 1999.

18440 Chrome dash panel kit ***$109.99***

18442 Replacement rubber trim ***$4.99***

Note: These kits may also be installed on earlier 4-speed FL and FX models with Fat Bob tanks and cast dashes, if the frames are drilled and tapped for the rear mounting screw.

Auto Meter® 1 1/2"-Diameter Oil Pressure Gauges

This innovative design has eliminated the need for liquid. They did this with a Gel Encapsulated Mechanism technique in their manufacturing process that dampens vibration performance exceeding that of liquid filled gauges. Also the glass lens will not scratch or yellow – ever! No more distorted view of the pointer at the bubble. Contains the standard 1/8"-27 NPT male fitting.

MADE IN USA

ACCEL

Accel® Oil Pressure Gauge

Premium quality 60 psi. oil gauge with 1 1/2"-diameter, four color "Thunder Twin" dial face. Glycerin filled for vibration dampening with stainless steel housing, glass lens and solid brass internals.

270047 Sold each ***$48.99***

Oil Pressure Gauge Kits for Evolution® Big Twins

These kits permit you to check your oil pressure at a glance while riding. They include chrome-plated adapters and an oil line that connect the engine block and the rocker box. Install in minutes and fit all Evolution® Big Twins from 1984 thru 1999. Available with 100 lb. or 60 lb. liquid-filled oil pressure gauges.

18215 Kit with 100 lb. gauge *$43.99*
18216 Kit with 60 lb. gauge *$43.99*
270071 Replacement chrome fitting kit (gauge not included) *$17.99*

Rocker Box Oil Pressure Gauges

A selection of liquid-filled oil pressure gauges with unique chrome-plated adapters which permit them to be mounted to the rear rockershaft. Now you can install your oil pressure gauge in a place where you can easily read it while you're riding your bike. Installation takes only a few minutes because the adapter replaces the stock rockershaft end plug. Fit all 1957 thru 1985 Sportster® models and Shovelhead Big Twins from 1966 thru 1984 with your choice of 60 lb. or 100 lb. gauges. *$45.99*
